## PROFILE

I am an independent worker that can be relied upon to always be at work. I strive to complete all tasks given to me and ensure that they are done correctly. I am always willing to take on added responsibilities to meet team goals.

I encourage myself as well as others about [The 17 Sustainable Development Goals!](#)

## SKILLS

- PROJECT LEADERSHIP
- GROUP LEADERSHIP
- SOLO AND GROUP EXHIBITION KNOWLEDGE
- FLEXIBLE & ADAPTABLE

## EDUCATION

### Antique National School - STEM

2014-2020

Finished junior and senior high school with honors

### West Visayas State University – Computer Science

2020-Present

Completed First Year College as Dean's Lister  
Currently a Second Year Student

## EXPERIENCE

### Science & Technology Writer

2018-2020

Antique National School – Senior High School

Encouraged student interest in Science, Technology, Engineering, and Mathematics (STEM) through feature-writing for our school paper.

### Project Group Leader

2018-2020

Antique National School – Senior High School

Successfully created our project for our Technological Innovation subject, *Fast and Efficient Emergency Alert System*. Accomplished all project and team goals.

### Project Group Leader

2021-2021

West Visayas State University

Successfully created our project for our first year, second semester finals entitled, *Image Classification for the Appropriate Use of CDC-Recommended Face Masks*. Established performance goals for group members, provided learning resources, and cultivated positive rapport to boost group morale.

### Enrolled in a Full-Stack Engineer Path Online Course

2021-2022

<https://www.codecademy.com/learn/paths/full-stack-engineer-career-path>

Started on December 16, 2021 and currently at 4% of the course as of January 6, 2022. Built projects and interacted with the community forums to increase productivity and learning.

## Lead Website Developer for an Online Art Exhibit Project

2021-2022

West Visayas State University

Assigned as the lead website developer for our art exhibit finals project. Together with my co-developers, we have finished the landing page overnight.
